### **Healthy Tusc Requests Community Help to Complete Important Survey**

DOVER—From now through the end of June, Healthy Tusc is asking Tuscarawas County adults to complete an anonymous, online, health needs assessment survey in exchange for a chance to win a \$50 gas gift card. The results from these anonymous and confidential surveys are very important to help local health and human service agencies identify the key health problems and needs of Tuscarawas County residents.

Each needs assessment survey takes an average of 15 minutes to complete, and the link can be found at <https://tinyurl.com/healthytusc> . After completing the survey, an online prompt will open a separate form where residents can submit their information if they would like to enter the drawing to win one of six \$50 gas gift cards. The survey link offers an option for English or Spanish.

“We hope all county adults will take time to complete this important survey because every opinion means a lot to us,” explained Jennifer Demuth, Healthy Tusc Chairperson and Director of Health Promotion and Community Relations with the Tuscarawas County Health Department. “Our local organizations are counting on the community’s participation to identify the health priorities that are impacting our community. This survey is conducted every three years, and the results are critical to help us find funding for the creation of new programs and services to meet our area’s most critical needs.”

Gift card winners will be announced in late July of 2024, and results of the anonymous survey will be shared in a community health needs assessment report this fall. For more information about the survey process, contact Demuth at [jdemuth@tchdnow.org](mailto:jdemuth@tchdnow.org).

Healthy Tusc is a collaborative of more than 20 Tuscarawas County health and human service organizations dedicated to improving the health of county residents. More information about Healthy Tusc can be found on the group’s Facebook page at [facebook.com/HealthyTusc](https://facebook.com/HealthyTusc).
